Public Survey: The committee discussed ways to promote the survey, such as Special Town Meeting, running stories in the Hull Times, providing a link on the front page of the Town website, putting up notices around town, and having all members of the committee directly email people on other boards they serve on to respond and also for them to forward to other people they think may be interested. The group also discussed whether the survey should be sent out to all residents to respond or just to 100 random residents as a way to possibly get more accurate results. The committee chose to send it to all residents.

First Forum Recap Discussion: Some good information and ideas were gathered but the group would have liked to see better attendance for future public forums so that a greater diversity of ideas could be heard.

OSRP Goals and objectives: The group discussed draft goals and objectives for the plan including: beautifying the entryway to the town, how to further preserve critical natural areas, pursuing opportunities that enhance environmental, historic, cultural, scenic and waterfront resources, space acquisition and development of recreational facilities, improving accessibility, and expanding active recreation facilities.

Member Grey moved to adjourn the meeting. Motion was approved 5-0.
