

FOOT CLINIC

Monday, AUGUST 15 @ 11:30—1:30

Next appointment, Monday, OCT 17

will be in the Jacobs School

Call Mary at **781.925.1239** for an appointment. Medicare will cover the initial visit if you have met the \$100 yearly deductible and have not been seen by a podiatrist within 60 days. Since Medicare is an 80/20 plan, coverage depends on the particulars of your insurance. If the secondary insurance rejects the claims you will receive a bill for the 20% that is not covered by Medicare. If you do not qualify for routine foot care under Medicare guidelines, Dr Dwyer will inform you during the initial visit if future treatments will be covered.
