ROAD CONSTRUCTION - EXPECT DELAYS

Beginning on Monday, May 15th, T.L. Edwards Inc, working for the Town of Hull, will begin repaving Nantasket Avenue from A to H Street and Fitzpatrick Way from XY Street to the intersection of Spring Street near the Life Saving Museum.

The project includes grinding the roadway surface down and repaving the road. The existing failed sidewalk from A to H Street will be removed and new sidewalks including granite curbing and cement sidewalks will be installed. The total project is scheduled to take 7 weeks.

Please add a few extra minutes for your morning commute. We will do our best to keep traffic moving but you should expect and plan for delays.

We apologize for any inconvenience you may experience while the work is on-going.

Please contact the DPW with any questions or concerns at (781) 925-0900
