Kevin Richardson

Chairman – Board of Selectmen

RE: Quarterly Report

Dear Mr. Richardson,

The Disability Commission has been inactive for the past few years due to lack of membership. However that does not mean that the concerns for the disabled in our Town are not being addressed. I am confronted with these issues on a regular basis.

My job as Building Commissioner requires that all new construction and all substantial improvement is compliant with 521 CMR – the Architectural Access Board regulations of the State of Massachusetts.

We have made rulings and given opinions on several projects around Town that impact the public on a daily basis. The most notable of which was the new walkway/ramp at the Veterans Memorial enabling all to have access to that important site.

I urge the Board to include the Disability Commission in future endeavors relative to finding qualified members to serve.

Respectfully Yours:

Peter Lombardo

Building Commissioner
