BOH update

October 3, 2017

The Board of Health held a meeting on September 26, 2017 to discuss changes to the BOH regulations in regard to permitting and operations of commercial, residential and municipal solid waste/recycling collection.

The Board also voted on the bundling of the cost of trash and recycling to encourage recycling and allow compliance with the Commonwealth of Massachusetts Department of Environmental Protection Solid Waste Bans 310CMR19.017.

The Board also voted on a fining system for violations. The goal is to encourage more recycling and hold the licensed haulers as well as the residents responsible and be compliant with DEP.
