**Quarterly Report  
10/11/2018**

**The mission of the Hull Historical Commission is to advocate for historic preservation in our community.**

The Historical Commission continues to work with the Fort Revere Park and Preservation Society to rehabilitate Fort Revere. FRPPS with help from HHC has begun an anti-graffiti signage program there

After several visits with engineers to the Fort Revere water tower the HHC has applied for Community Preservation funds to begin the rehabilitation of the historic structure with the goal of opening it to the public late next year.

HHC continues to work with Chris Delorio on a signage project for the town.

The planned book with Donning Publishing is presently on hold.

HHC has declined to endorse the DCR's plan to demolish the historic cottage community on Peddock's Island and instead has advocated for preservation and reuse of those cottages
