AGENDA

3:00 125 Main St. Map 02/Lot 005 (SE35-1672). Review of Revised Plans to be considered as Plan of Record for Order of Conditions, revision date 05/25/2022.

Brodsky: I don't think that this hearing is required. This is the revised plan as per our last meeting. Commissioner: The decision line 4, Commissioner: I have something to read for the record for the reason for this plan and hearing. There appears to be some confusion on both sides on why the revised plan was required, the Order of Conditions itself, and what the Commissioners are voting on. Commissioner read from the approved 5/10/2022 Hull conservation Minutes: Bottom of page 3 continuing to top of page 4: "Krahforst highlights plan to try and capture what is being proposed by Ray and is corrected by Commissioners and Brodsky that the orientation of the accessway is to be parallel to the boat storage fencing." Page 4, Line 3 Commissioner: "You could submit a revised plan showing the changes. Brodsky: We are happy to submit a revised site plan showing the 12 foot accessway on the southern and western boundaries (of the boat storage area)." Based on those representations the following parts of the special conditions (for SE35-1672) are being read into the minutes. "No mechanical or vehicle maintenance or repairing or storage be done in the middle area on the plan, no activities to take place in the middle area, access and material delivery to the pier be limited to the 12 foot access way on the southern and western boundary of the parking and boat storage area". Also for the record: When that motion was made a revised plan was needed and was a special condition. Now we have the revised plan. Another Commissioner: It looks like what we discussed. Another Commissioner: The parking of boats is partially in the VE Zone
