UPDATE ON REQUEST TO DCR TO CLOSE NANTASKET BEACH PARKING LOTS

For the past week Town officials and our State Representatives have been urging the DCR to close the parking lots associated with the Nantasket Beach Reservation. The conversations have been pointed and frequent. The Town does not have the authority to order a closure of a state facility, that authority rests solely with the Governor.

We have been advised that DCR is considering several actions for the parking lots at Nantasket Beach as well as actions for parks in other communities. Please rest assured that Town officials are advocating for a change and we are expecting, based on our conversations, that significant adjustments will be forthcoming shortly. When we receive notification of the revised operations plan from the DCR we will post the information. Thank you.

Phil Lemnios
Town Manager
