

SAFETY PROGRAM

The goal of the School Committee is to protect the safety of all students, employees, visitors and others present on school property or at school-sponsored events. Efforts directed toward the prevention of accidents will succeed only to the degree that all staff members recognize that preventing accidents is a daily operational responsibility.

The Committee will comply with safety requirements established by governmental authorities and will expect that its staff adhere to recommended safety practices as these pertain, for example, to the school plant, special areas of instruction, student transportation, school sports and occupational safety.

The practice of safety will also be considered a facet of the instructional program of the schools: instruction in accident prevention as well as fire prevention; emergency procedures; traffic, bicycle, and pedestrian safety.

The Superintendent will have overall responsibility for the safety program of the Hull Public Schools. It will be the responsibility of the Superintendent to ensure that appropriate staff members are kept informed of and implement the current state and local requirements relating to fire prevention, civil defense, sanitation, public health, and occupational safety.
