RE: March 2012 Monthly Operating Report

Dear Mr. Petrilak:

Attached is the AOS / United Water, March 2012, Monthly Operating Report illustrating operations and maintenance activities at the Hull WPCF wastewater treatment facilities and the collection system. This report demonstrates activities performed during the period March 1 to March 31, 2012

March's overall performance was very good. There were two exceedences of the NPDES Permit. For effluent BOD Daily Max and Weekly average due to soap residue in the collection container.

We welcome any comments or suggestions for improving this report

Very truly yours,

Pete Nyberg
Plant Manager
United Water / AOS
