

**EFFECTIVE SATURDAY, AUGUST 8, 2020
ANNUAL RESTRICTIONS ARE IN PLACE FOR ALL WATER USERS**

Dear Valued Customer,

Effective Saturday, August 8, the Weir River Water System will be restricting non-essential outdoor water use as a means to better manage the system's water supply. These restrictions are based on an evaluation of current drought conditions and a need to conserve and maintain water supply and service throughout Hingham, Hull, and North Cohasset.

Restrictions will include:

- Watering by sprinkler or irrigation systems will be allowed on each customers' assigned day, before 10 a.m. and after 6 p.m.
- Customers' assigned days are as follows:
 - Odd addresses: Tuesdays and/or Saturdays;
 - Even addresses: Wednesdays and/or Sundays;
 - No address: Sundays and/or Wednesdays
- Hand watering is allowed anytime.
- The Weir River Water System may institute further restrictions, on a community-by-community basis, as conditions or regulations may require.

The following shall also apply regarding enforcement of these restrictions:

- During the restriction period, first and second violation notices shall state the consequences (i.e., shut off-termination charges and fees) for each subsequent violation cited during the restriction period.
- Copies of notification, penalties, termination notices, and acknowledgements of penalties will be kept by the Weir River Water System.
- In an emergency requiring 24 hour or less notification, termination will be deferred until the Customer found in violation is personally notified.
- Exceptions may be granted for Annual Restrictions based on the review and approval of the Weir River Water System.
- Restrictions will remain in effect until public notice is given by the Weir River Water System.
- Costs of termination and restoration must be paid in full before service is restored.
- The words "Personal Notification" shall be taken to include posting at the premises being serviced by hanging or taping to the entrance facing the street, walk or driveway.
