

Roadway Paving Begins Monday, May 9th

The Town's contractor, T.L. Edwards, Inc., will be paving the following roads starting on or about Monday, May 9th and continuing through early/mid-August:

- Newport Road (early/late-May)
- Farina Road (early/late-May)
- Park Avenue (late May/early June)
- Rockland Circle (late May/early June)
- Berkeley Road (late May/early June)
- Beacon Road (early/late June)
- Point Allerton Avenue (early/late June)
- All above roadways-finish paving (mid/late July)
- Roads that are yet to be scheduled by the Contractor
 - Bay Street
 - Portions of Kenberma and Revere Streets.
 - Updates will be provided once the contractor schedules these roads.

Door flyers, including additional information on the construction schedule and contact information for abutter questions, will be left at each property in advance of work on each street.

Property owners along the affected roadways are asked to be aware of the work and not park on any roads being paved that day. Please have all vehicles removed from the road by 7:00 a.m. each morning.

Paving will cause some temporary disruptions, including detours and noise. The Town appreciates everyone's patience as we work to improve our roadway system.
