

ATLANTIC AVENUE PROJECT UPDATE

6/7/2022

In coordination with the MassDOT, the Contractor (P.A. Landers), and various other stakeholders, the Town of Hull through CHA Consulting Inc. will be releasing biweekly updates to keep the public informed of the construction progress and impacts to traffic and locals. Please keep in mind that while these updates are intended to provide as accurate and up-to-date information as possible, construction activity can change on a day-to-day basis.

Previous Two Weeks Summary

In the previous weeks, the Contractor, P.A. Landers, has installed the new underground stormwater drainage system between Nantasket Avenue and School Street.

Hull Municipal Light Plant (HMLP) began the utility pole relocation on June 2nd. New utility poles have been set between the Cohasset Town Line and Gunrock Avenue.

Two Week Look Ahead

P.A. Landers will continue moving east with the construction of the drainage system. The work in the next two weeks will be between School Street and Richards Road.

Hull Municipal Light Plant (HMLP) will be continuing with the installation of new utility poles. HMLP's work will continue west from Gunrock Avenue over the next 3 weeks.

Traffic Impacts

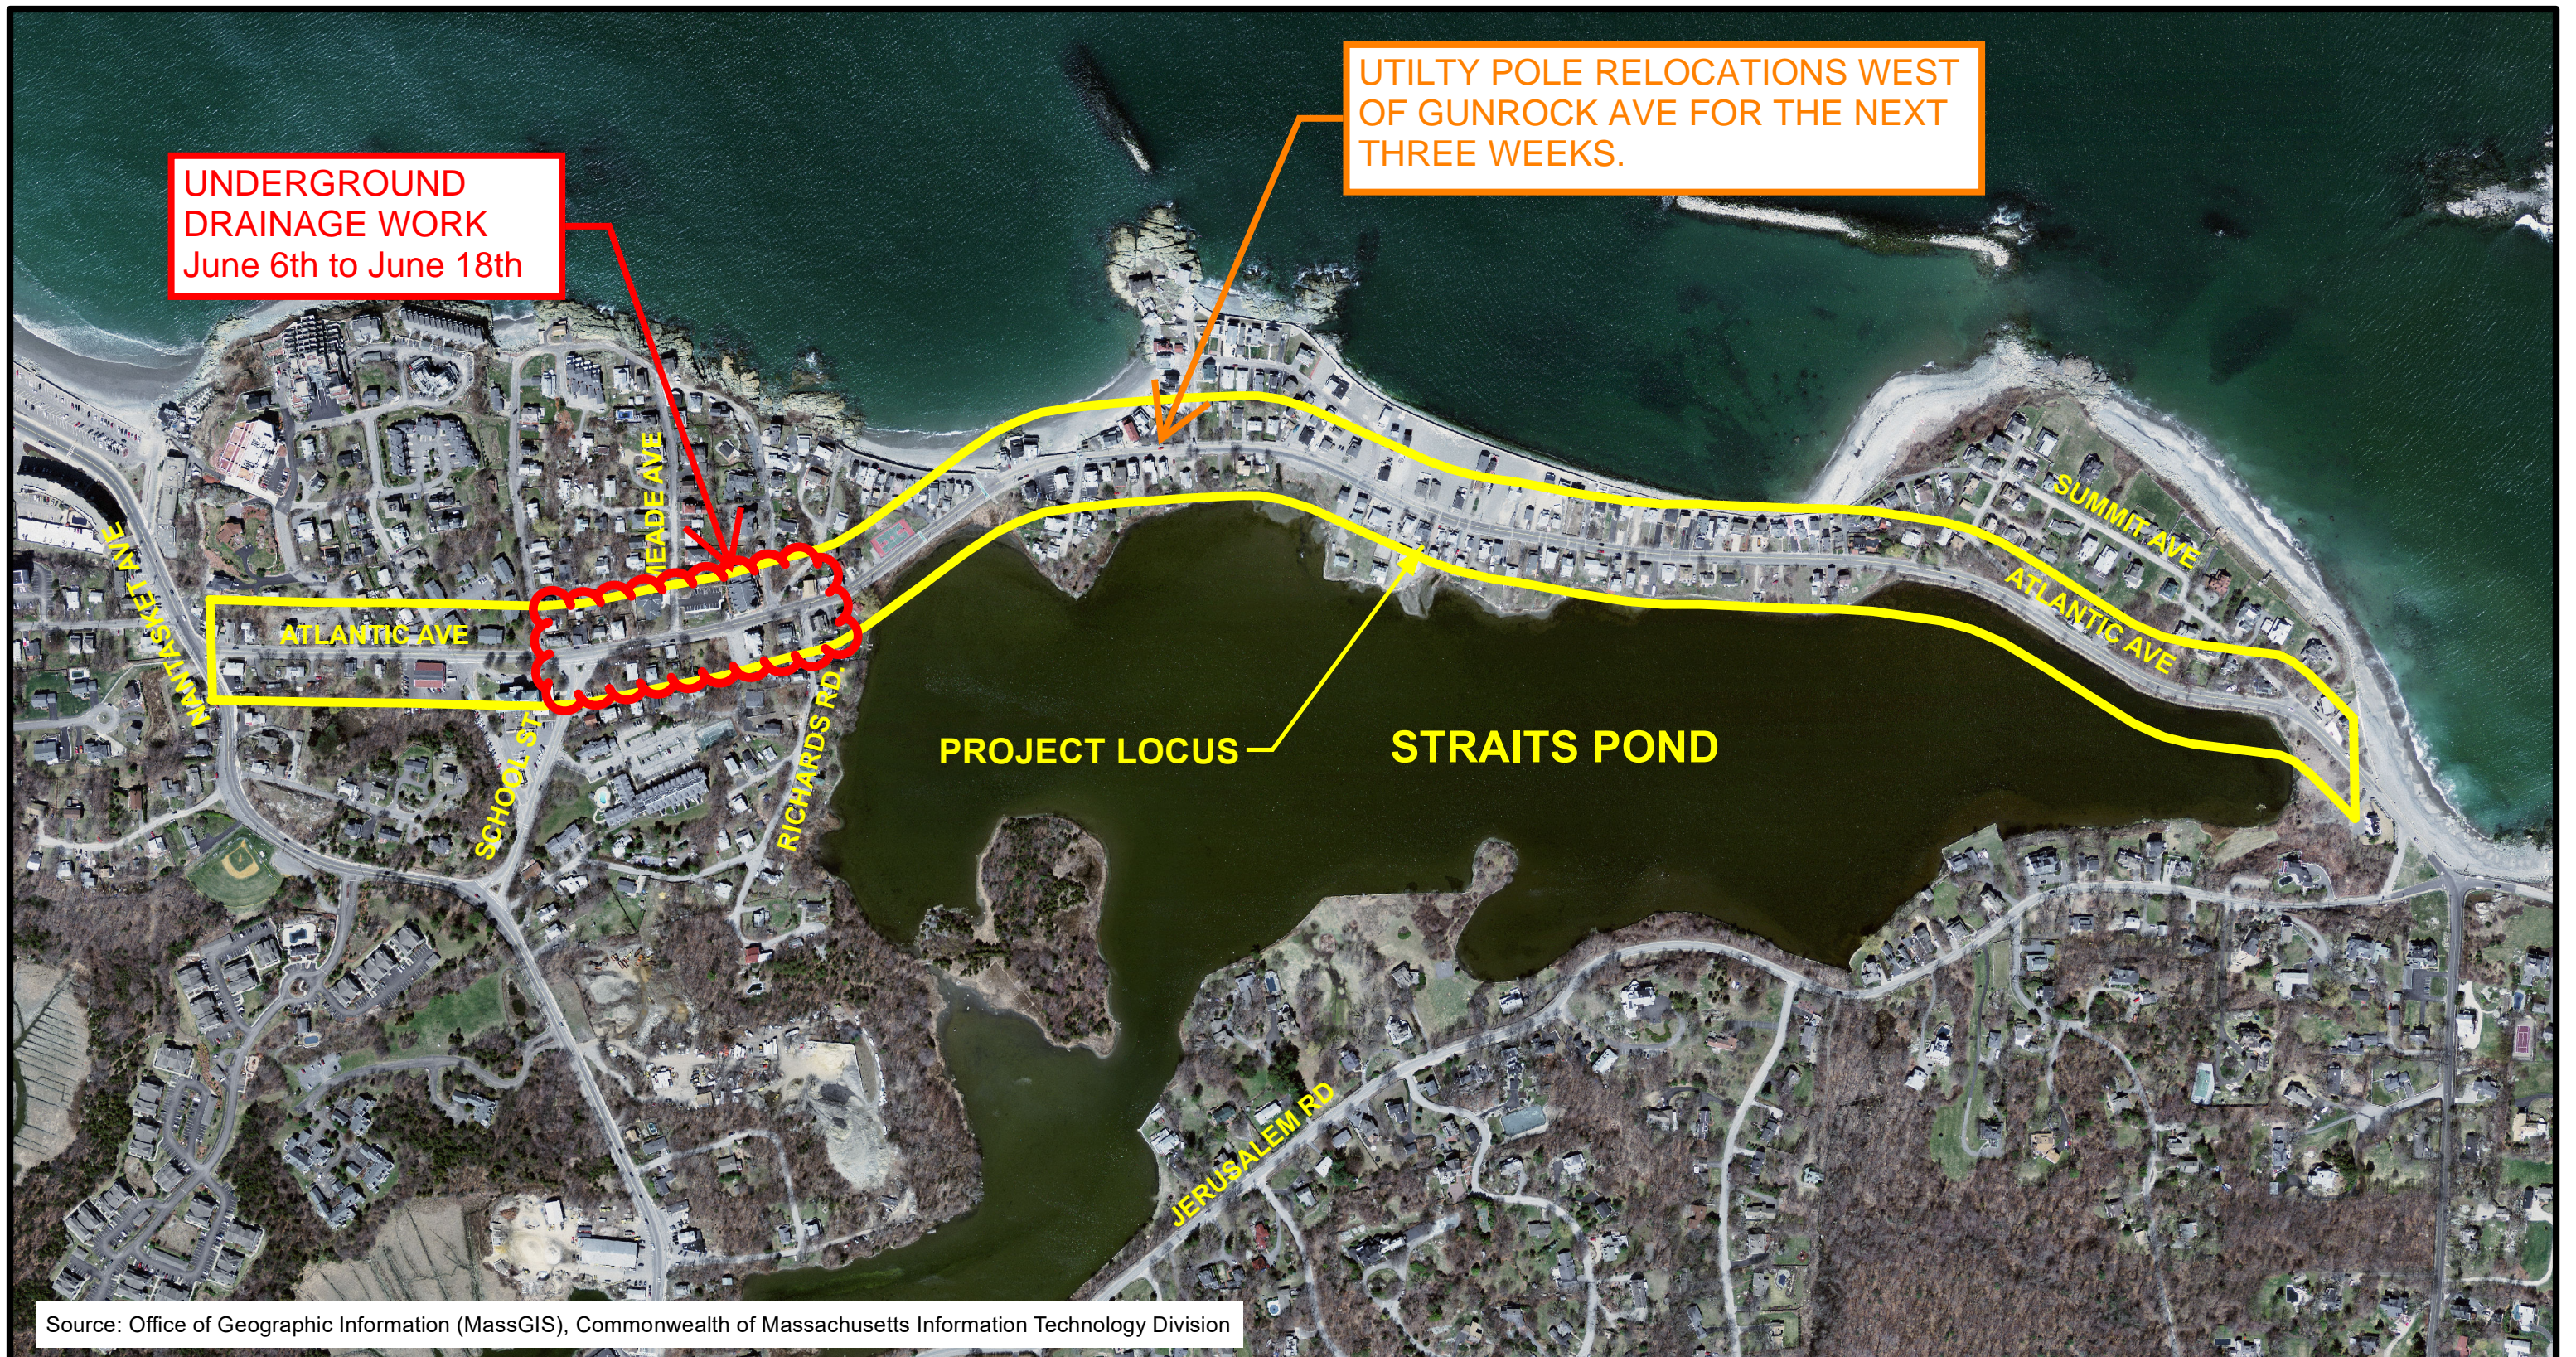

Expect thru vehicle traffic to be detoured between School Street and Jerusalem Road during the daytime for the next two weeks with one lane of traffic open for school buses and local traffic. Pedestrians, bicycles, and emergency vehicles will continue to be able to travel through the construction area. Access to residences, businesses and the Town Hall will be maintained.

Trenches will be restored with asphalt patching at the end of each week. Please remember to use caution while traveling through the construction area. The construction may cause noise disruption during the work hours of 7:00 AM to 3:30 PM.

Questions/Concerns?

Please reach out to Joe Stigliani at jstigliani@town.hull.ma.us or the Department of Public Works at (781) 925-0900.
