

ATLANTIC AVENUE PROJECT UPDATE

7/18/2022

In coordination with the MassDOT, the Contractor (P.A. Landers), and various other stakeholders, the Town of Hull through CHA Consulting Inc. is releasing biweekly updates to keep the public informed of the construction progress and impacts to traffic and locals. Please keep in mind that while these updates are intended to provide as accurate and up-to-date information as possible, construction activity can change on a day-to-day basis.

Previous Two Weeks Summary

In the previous weeks, the Contractor, P.A. Landers, has installed the new underground stormwater drainage system between Nantasket Avenue and Stony Beach Road.

Hull Municipal Light Plant (HMLP) has completed the utility pole relocations along Atlantic Ave.

Two Week Look Ahead

Work on the underground drainage system will continue this week near the Stony Beach Road intersection. Following that, underground drainage installation will continue along Atlantic Avenue starting at Gunrock Avenue and continue west towards Montana Avenue.

Hull Municipal Light Plant (HMLP) will be working to install new overhead electrical wires between Gunrock Avenue and Nantasket Avenue and transferring power to the new wires over the next two weeks. Any power outages will be coordinated with impacted property owners.

Traffic Impacts

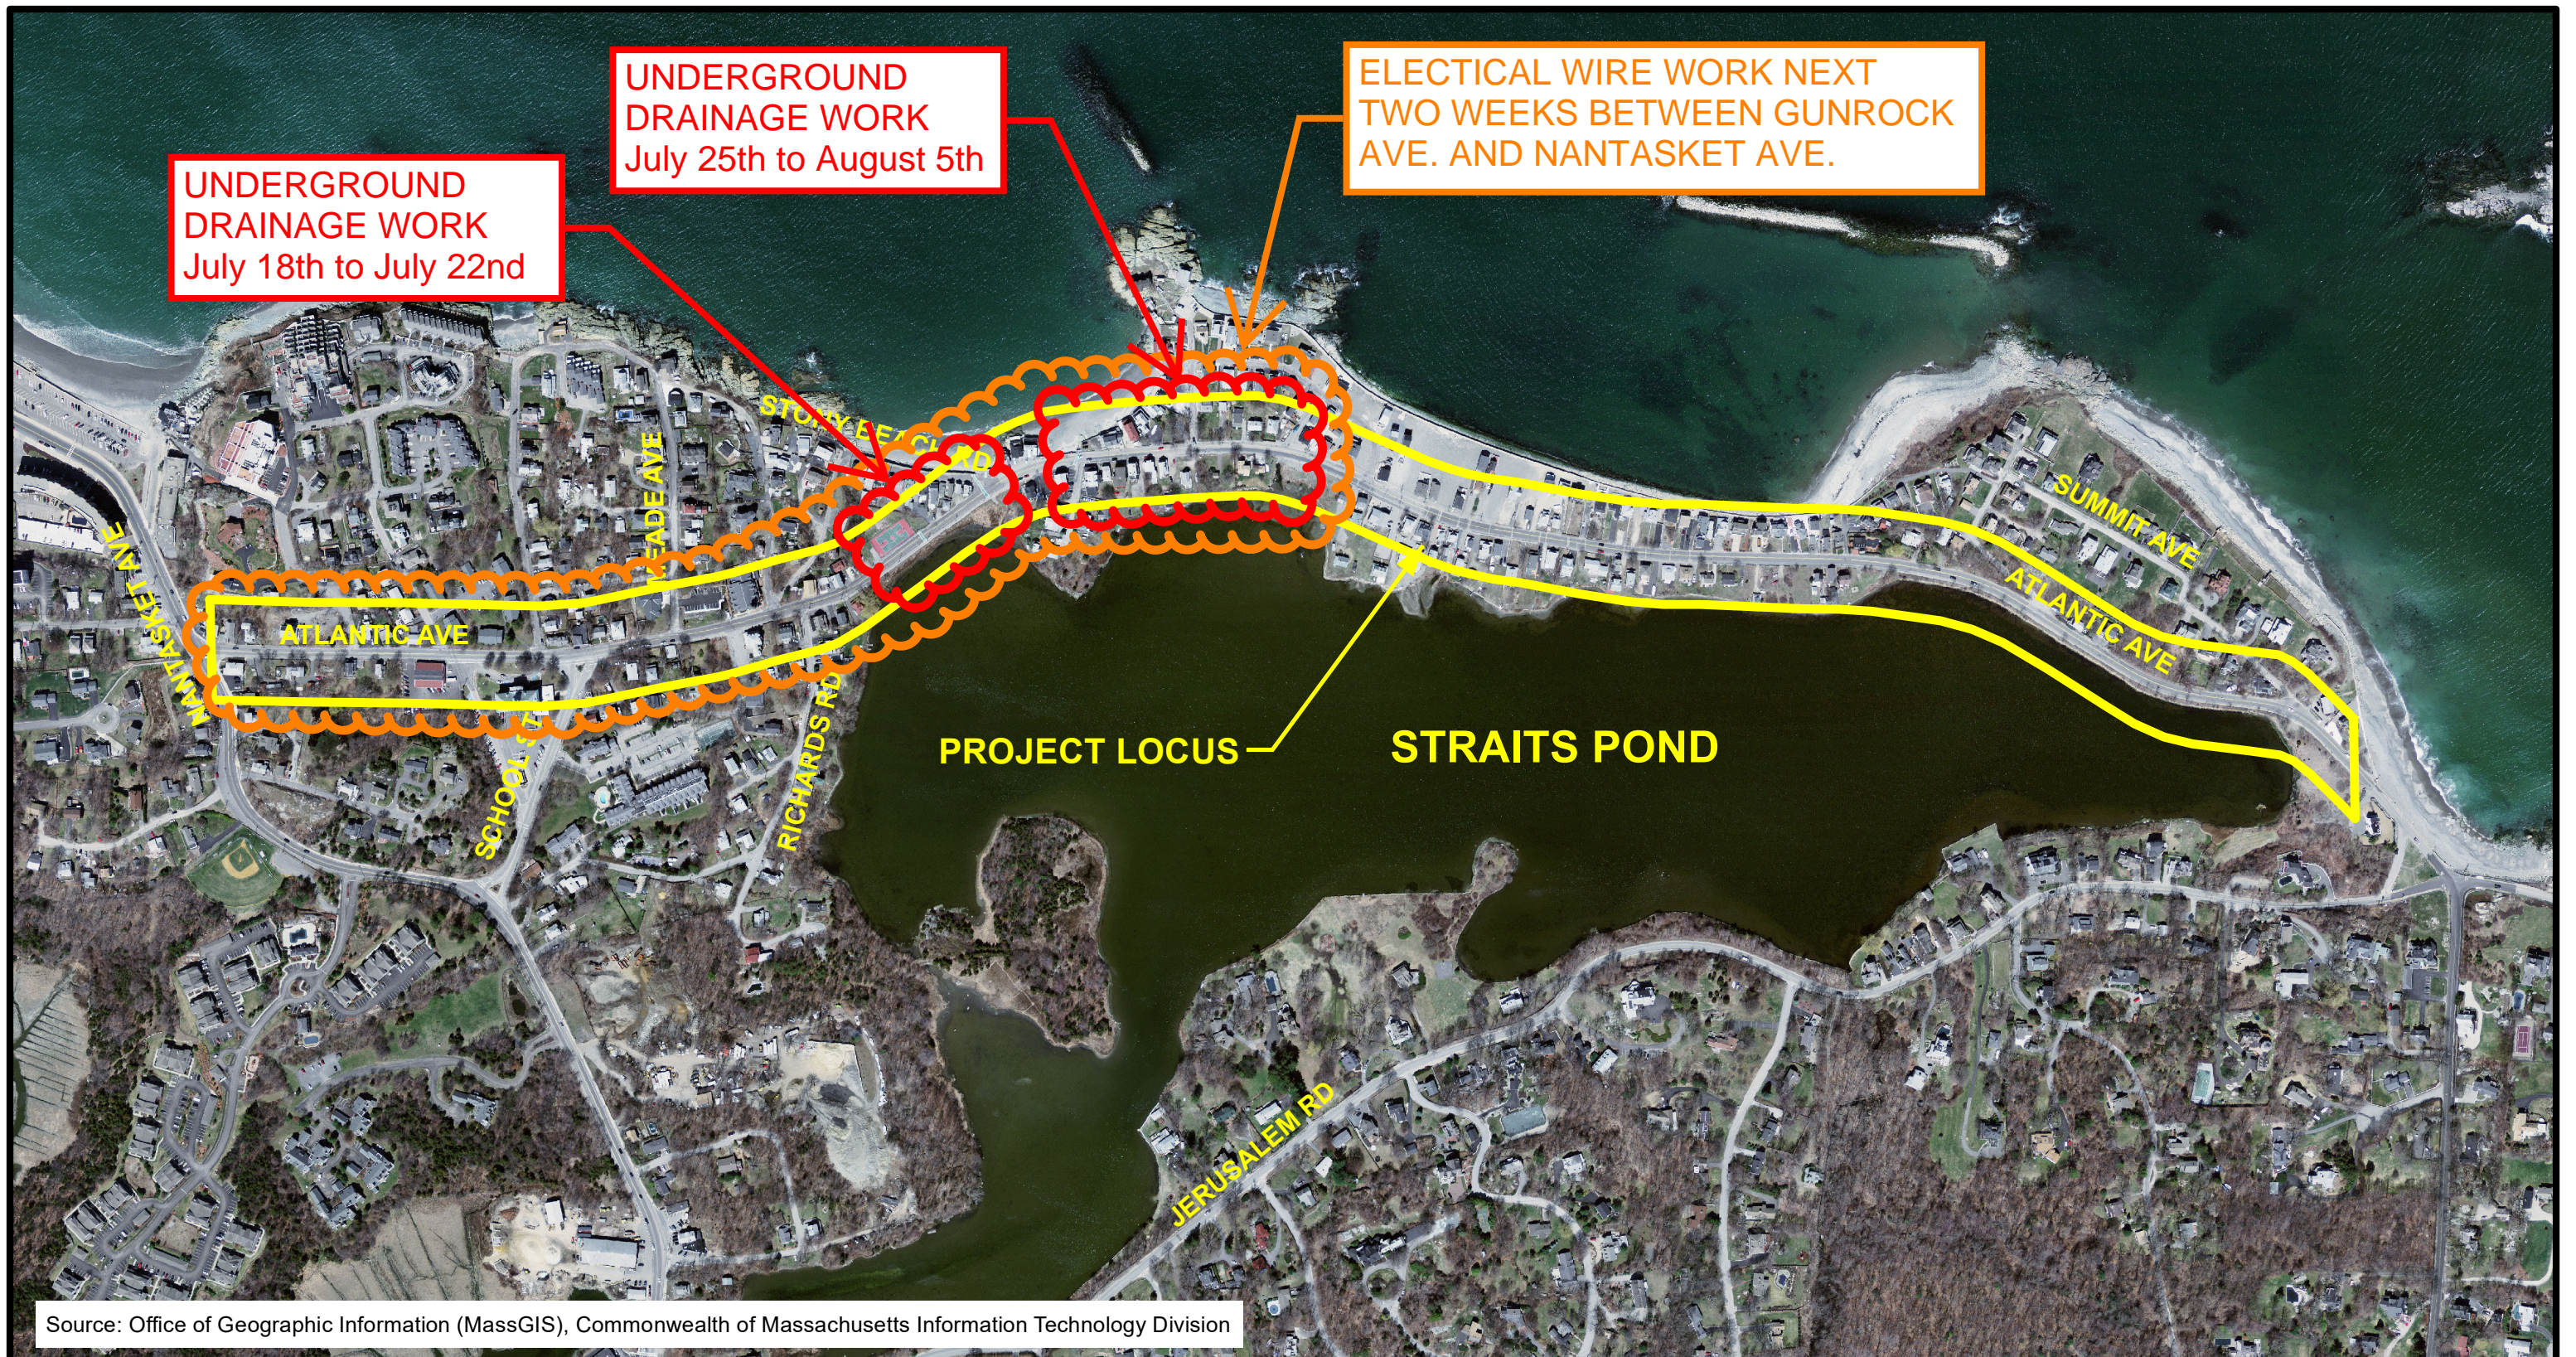

Expect thru vehicle traffic to be detoured between School Street and Jerusalem Road during the daytime for the foreseeable future with one lane of traffic open for local traffic. Pedestrians, bicycles, and emergency vehicles will continue to be able to travel through the construction area. Access to residences, businesses and the Town Hall will be maintained.

Trenches will be restored with asphalt patching at the end of each week. Please remember to use caution while traveling through the construction area. The construction may cause noise disruption during the work hours of 7:00 AM to 3:30 PM.

Questions/Concerns?

Please reach out to Joe Stigliani at jstigliani@town.hull.ma.us or the Department of Public Works at (781) 925-0900.
